

DIESEL ENGINE REFRIGERATION UNIT FOR REEFER TRUCK

Corunclima diesel engine refrigeration unit, with extremely powerful cooling power, performs exceptionally in refrigeration for cargo container with length 5-9M. As a classic refrigeration unit, D700/D1000/D1200 from Corunclima owns great reputation from the clients.

Diesel Engine Driven

D700/D1000/D1200

Model No.	D700	D1000	D1200	
Driven	Diesel Engine Driven			
Temperature	-20℃	-20℃	-20℃	
Voltage	DC12V/DC24V	DC12V/DC24V	DC12V/DC24V	
Cooling capacity	-20℃	3950W	5200W	6900W
	-5℃	6950W	8700W	11500W
Refrigerant Gas	R404A	R404A	R404A	
Cooling Air	2700m ³ /h	3150m ³ /h	3150m ³ /h	
Size(mm)	1795*795*555	1825*860*630	1915*970*690	
Weight(Kg)	435.0	500.0	560.0	
Engine	2cylinder	3cylinder	3cylinder	
Compressor	325cc	470cc	560cc	
Controller	Digital / in Cabin			
Defroster	Included / Hot Gas			
Standby	400V/3ph/50HZ, 230V/3ph/50HZ, 230V/3ph/60HZ, 380V/3ph/60HZ			
Cooling for box	5.5-6.5m Length	7-8.5m Length	8.5-9.6m length	

Installation Kits (Hose, Drain Hose, wiring, Clamps etc included)

Ambient Temperature=48℃

Engine: Perkins, Yammar brand.

Compressor: GEA Bock Brand
